Aloe Arborescens Internationally Acclaimed by Father Romano Zago

Father Romano Zago, OFM (Order of the Friars Minor), aloe and health researcher, Brazilian scholar and author, publicized this recipe for the benefit of mankind. He has collaborated exclusively with Deca Aloes Arborescens, S.R.L. in Italy and the North American affiliate, Deca Aloe Arborescens US, LP, to allow his name to be used in connection with the production and distribution of this Brazilian recipe for a whole leaf Aloe arborescens-based nutritional dietary supplement. It is the only product on the market authorized to carry his signature on the label to vouch for the authenticity of this exacting recipe in each bottle.

Our Aloe is produced from 5-year old Italian Aloe arborescens plants harvested at the proper time, processed by grinding the whole leaf without heating, cold pressing or freeze drying in order to retain all the active glucomannan polysaccharides (4%), such as mannose (2 ml per serving) to guarantee maximum effectiveness in immune system support.* It also contains unheated, raw, pesticide-free honey (6.4 g per serving) and 1% certified organic alcohol for the purest and most effective absorption when taken short or long term.

Aloe Arborescens

The Quantum Nutrient Effect

When quantum-state quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect is far greater than the sum of their individual benefits: The Quantum Nutrient Effect.

Ideal Cellular Resonance

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. Only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

Quantum State-Nutrients Without the Risk

- No magnesium stearate, *a toxic oil proven to suppress the immune system*
- No animal glandulars, *with toxic tag-alongs and animal death hormones*
- No tablets, *with toxic tag-along binders and fillers*
- No excipients, *highly questionable (often toxic) fillers and binders called excipients are commonly added to nutritional products*

Galenia Aloe Arborescens – Ingredients

A Premier Dietary Supplement

16 fl oz/bottle (473 ml) - Serving Size 1 Tablespoon (15 ml)

Proprietary Blend.....15ml
